Recycled Plastic

Avondale
Recycled Plastic Option

Recycled Plastic Slats
Additionally, recycled plastic serves as an option to the Avondale collection. All dimensional recycled plastic lumber is GreenCircle Certified and meets the requirements of LEED v4 and v4.1 MR Credit. These products are Recycled High Density Polyethylene (HDPE) and are certified to contain a minimum of 17% Pre-Consumer Content. No other products such as wood pulp, wood fiber or fiberglass are used in the production of these products. By using materials that have been diverted from the waste stream (e.g. plastic, wood, rubber, etc.), recycled plastic lumber (RPL) conserves landfill space.

Benefits of Recycled Plastic Include:
Rarely cracks or splinters.
Resists rot, mildew and termites.
Is weather and graffiti-resistant.
Is unaffected by bacteria, worms, insects, fungi or rodents.
Can be painted or stained when wood or other natural fiber is incorporated.
No waterproofing, staining or regular maintenance required.
Is long lasting, sometimes lasting more than 50 years, depending on the application.
Is sold in a variety of standard dimensional sizes, colors and textures.
Is aesthetically pleasing. Can be manufactured to meet different designs and appearance specifications.

Standard Colors available: Cherry Wood, Cedar, Weathered Wood, and Slate Gray.

Premium Woodgrain Colors available: Brazillian Walnut, Antique Mahogany, Coastal Gray, and Driftwood Gray

Colors shown are only a representation of standard colors offered and should not be used as a substitute for manufacturer provided color samples.
